

## Body Protector Rule 2019

The Pony Club does not make the use of body protectors compulsory, except for all Cross Country riding and Pony Racing whether it be training or competing. If a Body protector is worn for any Pony Club activity it must meet BETA 2009 Level 3 standard (purple label) or **BETA 2018 Level 3 standard (blue and black label) – see below.**

For general use, the responsibility for choosing body protectors and the decision as to their use must rest with Members and their parents. It is recommended that a rider's body protector should not be more than 2% of their body weight. When worn, body protectors must fit correctly, be comfortable and must not restrict movement. **BETA recommends body protectors are replaced at least every three to five years, after which the impact absorption properties of the foam may have started to decline.**

**BETA 2009 Level 3 (purple label) body protectors will continue to be accepted at Pony Club competitions until 31<sup>st</sup> December 2024.**

Riders who choose to use the Woof Wear Body Cage EXO must lodge a key with the Event Organiser when they collect their number.

### Air Jackets

If a rider chooses to wear an air jacket in Cross Country or Pony Racing, it must only be used in addition to a normal body protector which meets the BETA 2009 Level 3 standard (purple label) or **BETA 2018 Level 3 standard (blue and black label).** Parents and Members must be aware that riders may be permitted to continue after a fall in both competition and training rides for Cross Country and/or Pony Racing, provided the rider has been passed as fit to continue by First Aid Providers. In the event of a fall, it must be fully deflated or removed before continuing, after which, the conventional body protector will continue to give protection. Air jackets must not be worn under a jacket and number bibs should be fitted loosely or with elasticised fastenings over the air jacket.
